CIRCULAR

Ref No: CS-AC/2026-27/117
Date: Sep 09, 2026
File: Circular to Parents 2026-27

Subject: Response to the concerns raised during the PTM on 29th Aug 2026.

Introduction

I would like to express my sincere gratitude to all the parents and students who attended and actively participated in the Parents Teacher Meeting (PTM). As rightly stated in the *National Curriculum Framework for School Education 2023*, "Parents Teacher Meetings should not be primarily about telling parents the issues and challenges being faced with their children, but about sharing what their children are learning and the efforts being made by the school" (NCF-SE 2023, Section 2.2.2, p. 568). Please find below the Class-wise parent queries and responses:

Grade I -F

Parent of **YASH VARDHAN P**

Concern: The parent enquired about the possibility of introducing activity-based learning during the current academic year.

Response: Principal explained that activity-based learning is being considered for implementation in the coming academic year, subject to obtaining the necessary permissions. He further clarified that, while it is a promising approach, its effective implementation would require adequate planning, preparation, and time.

Grade I - A

Parent of **S NIRANJAN**

Concern: The parent suggested providing children with more opportunities to practise and enhance their language skills through interaction with students who speak different languages. The parent also recommended greater involvement of language teachers in facilitating such opportunities.

Response: The school will collaborate with the HODs of different languages to organise more language-based programmes and activities, encouraging students to improve their language proficiency and communication skills.

Grade II - D

Parent of **SHARMISTHA PAUL**

Concern: The parent requested that the van timings for students using school transport be reviewed, with a preference for an earlier departure, ideally before 3:00 p.m.

Response: As most of the school vans are shared by students from different schools under the Christ Group of Institutions, changing the van timings may not be feasible, as it would affect the transportation schedules of other schools and students. Therefore, the existing timings will be continued.

Grade I - B

Parent of **MUHAMMAD IZHAAN**

Concern: The parent raised a concern regarding the restriction on bringing chocolates to school.

Response: Principal explained that the restriction was introduced considering the milk allergy concerns of some students. He also highlighted the issue of chocolate wrappers being littered around the campus after consumption. The measure is therefore intended to ensure student safety and maintain cleanliness on the school premises.

Concern: The parent shared feedback regarding the conduct and overall effectiveness of the Floraison events and suggested that necessary improvements be considered.

Response: The feedback was duly acknowledged. It was informed that the necessary rules, regulations, and guidelines pertaining to the Floraison events will be communicated well in advance in the forthcoming academic year to ensure better clarity, preparedness, and effective participation by all concerned.

Conclusion:

Parents expressed their sincere appreciation to Principal for introducing diverse teaching-learning practices like No Bag Day and organising various educational trips. They acknowledged the school's efforts in providing students with meaningful, engaging, and enriching learning experiences.

Let us walk an extra mile with Compassion and Competence..!

Thanking you,

Fr. Jinosh V. Mathew, CMI
Principal
